Studies

Academic program: Foreign Languages Pedagogy

School name: UTPL (Private Technical University of Loja)

Graduation: 2025

What work will you pursue with your program?

Pedagogy, through English, to teach Spanish in another foreign language.

The Foundation

First, I met Margarita in the health class and I remembered her a lot because she was very enthusiastic and with a cheerful character. I remember that she always entertained us with a puppet called "Keko". I met Mike through Margarita and also because he was my sister Lorena's teacher, and little by little I got to know everyone in the foundation through the annual meetings that they used to have before the pandemic. I found them to be excellent people.

DEOF has supported me academically, psychologically and economically. In the meetings with DEOF, every interaction has been a precious and significant addition to my life. Especially when I could speak English with Mike, Margarita, or with a foreigner who was a guest of Mike and Margarita during the picnics every year at the foundation or during the zoom meetings. It is a great opportunity in life for those who take advantage of it. It is a great social work that places its trust in young people and helps them with their university studies.

2024 Update:

I have learned a lot about North American culture thanks to weekly meetings with my friend Bill from USA, Ohio. Because I study and work at the same time, I value even more all the effort that the foundation makes for each of us.

I currently provide delivery services, however I am looking for a job where I can use my English skills. In the future I would like to carry out an intercultural exchange that allows me to improve my fluency.
