**Studies**

**Academic program:** CPA Accounting and Auditing Engineering

**School name:** Salesian Polytechnic University

**Graduation date:** 2016

**What work will you pursue with your program?**

Work in the finance area of a global company

**The Foundation**

Since I was at the Working Boy Center at school, I met Mike, who was my Mathematics teacher, and he was also my tutor when I had to do social work and help with homework for the school children at the CMT, I met Margarita as a nursing assistant and she is an excellent professional and a good person.

When I finished school I was looking for a way to generate income to be able to pay for college and Mother Miguel called me to tell me about the Foundation that Margarita and Mike were running.

Throughout my career they supported me in my studies since I started and as always I never failed any class. I always highlighted my gratitude to them, even though in the sixth semester I got pregnant, I showed them that everything can be achieved. My daughter has been the driving force to continue.

Without the Foundation I would not have been able to graduate and be a professional like I am now.

**2024 Update:**

Nowadays I am looking for different challenges like getting a Master's Degree for which I am saving to be able to get one. I am currently part of the staff at the Working Boys Center which is also my parents' workplace.
